Statistics II · Financial Contracting · Microeconomics · Money and Banking · Macroeconomics

Students of the International College shall choose one of the following three schemes for overseas studies before graduation.

I. Students shall take at least 9 credits per semester should they study abroad at a university in Europe, America, Australia or Asia in which English is the lecture language, or at a college of any sister university in Mainland China in which English is the lecture language upon approval of the University;

II. Students may spend a summer vacation in studying abroad for four weeks or more upon approval of the University. They may earn credits from such overseas programs or take English courses there.

III. Students may undertake an internship overseas at any institute in the industry related to their profession for one semester upon the approval of the University; upon completion of the internship, practical experience may be used for credit transfer.
